

Basic performance data:

Rated voltage of excitation coil, V	- 90
Rated current, A	- 8
Boosting ratio for current, relative units	- 2
Duration of boosting, sec.	- 50
Rated voltage of secondary supply system	
- alternating, V	- 3x380
- operational, direct, V	- 110, 220

KOSUR control system ensures automatically controlled direct current power supply to excitation coil of brushless exciters of synchronous generators..

Symbolic notation structure:
